## **Technologies used**

→**HTML:** HTML stands for HyperText Markup Language. It is a standardized system for tagging text files to achieve font, color, graphic, and hyperlink effects on World Wide Web pages. HTML files are saved with the .html or .htm file extension. HTML is used to create and structure content on the web. It consists of a series of elements, or tags, that tell a web browser how to display the content. HTML also allows you to create lists, tables, and forms.

→**CSS:** CSS stands for Cascading Style Sheets. It is a style sheet language used for describing the look and formatting of a document written in HTML. It is used to control the layout and design of web pages, including font sizes, colors, and margins. CSS allows developers to separate the content of a web page from its presentation, making it easier to update and maintain a website.

## About Project

### Sports club

when you login into the website it looks very awful and we added the facilities That we offer and we added contact section for further query .we displayed the fields that we offer and we added pics of facilities that we offer in specific field. If he/she was interested to join for that we added register section any one can register of minimum fee. Finally we added about section we represented our website and what we can provide. For all these we added a lot of tags.

### Briefly describe your Project

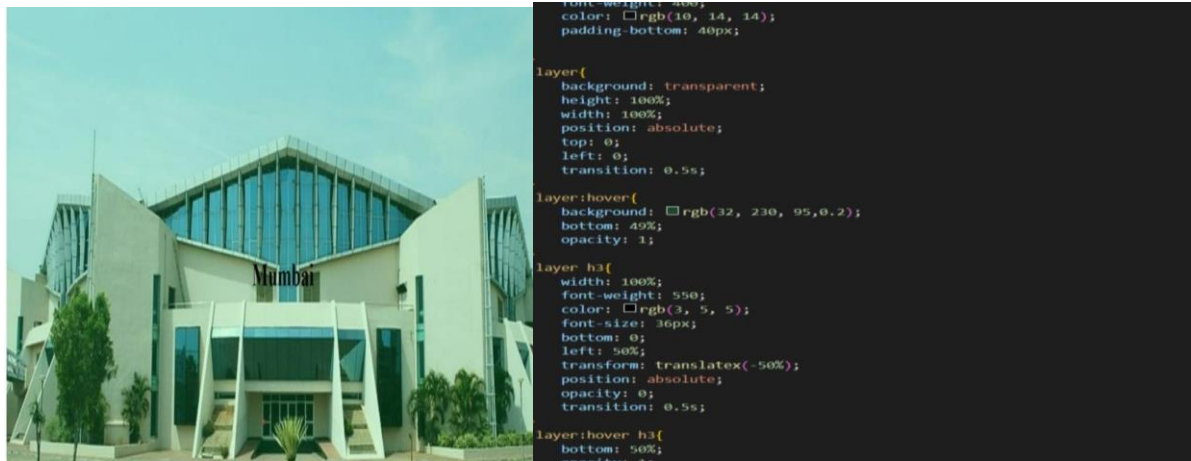

❑ First we had created a logo for this using online sites like Canva and We had given the internal link to it.

❑ Then we had done 5 html other sections as (Home,About,Games,Register,Contact)

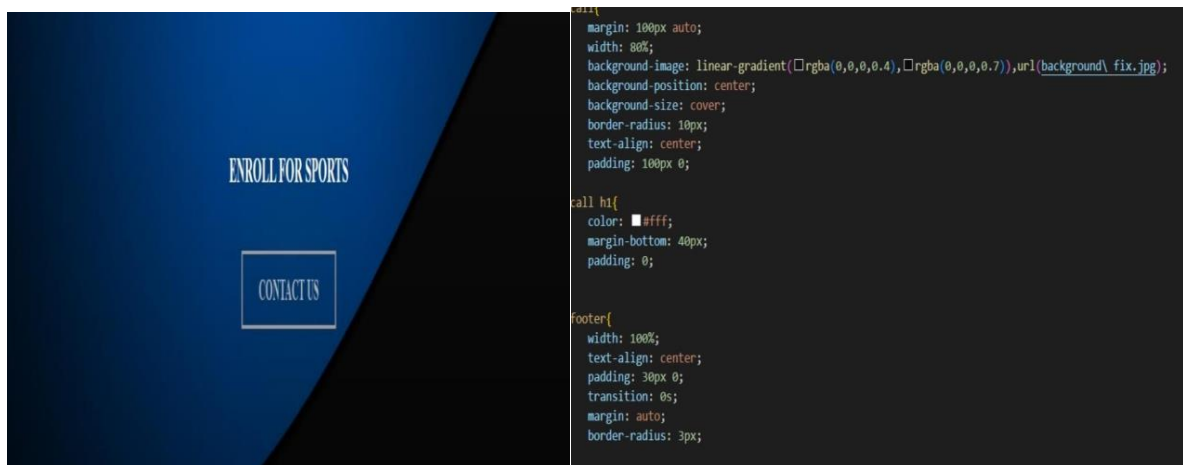

❑ In Home we had given a section (visit us to know more ) section when click on it Will take to you about section And we had added description about sports club in paragraph tag We did layout that para in css using color,align,hover and padding.

❖ We inserted pictures in it and we layout those pictures in css file Using the tags text-align,width,height,padding,display,text-decoration,color,,border,font-size,font weight,background,position,cursor , and using hover we added effect to it

❖ Finally in home page we add given footer section and in that we had inserted a Image and layout that in css file using wordspacing,padding,align,color and hover.

## About section

- Inserted a picture we aligned that image parallel to the paragraph
- Using css with tags (align,padding,width,height,position).

```
list-style: none;
display: inline-block;
padding: 8px 12px;

av-links ul li a{
color: #0070C0;
text-decoration: none;
font-size: 20px;

av-links ul li::after{
content: '';
width: 0%;
height: 2px;
background: #F44336;
display: block;
margin: auto;
transition: 0.5s;

av-links ul li:hover::after{
width: 100%;

ext-box{
width: 90%;
color: #757575;
position: absolute;
top: 50%;
left: 50%;
transform: translate(-50%,-50%);
```

# Games

✓ In this page we added the description about the games that we offer and in this we designed using css with the help of tags like height,width,font,frame,hover,background,border and padding etc

## SPORTS WE OFFER

Volleyball	Football	Badminton	Gym	Swimming
Volleyball. Once played by two teams of six players each, in which an inflated ball is volleyed over a high net. Each team tries to make the ball touch the court within the opposing side's playing area before it can be returned.	Football, also called association football or soccer, is a game involving two teams of 11 players who try to maneuver the ball into the other team's goal without using their hands or arms.	Badminton is a racquet sport played using racquets to hit a feathered shuttle across a net. Although it may be played with larger rackets, the most common forms of the game are "singles" (with one player per side) and "doubles" (with two players per side).	A gym is a large room, usually containing special equipment, where people go to do physical exercise and get fit. The gym has exercise bikes and running machines. While some gyms play golf, others work out in the hotel gym. The large gym offers a variety of exercise equipment and weights going up to 300 pounds.	Swimming is an excellent form of exercise, and provides benefits to the body in a variety of ways. Not only will it train your cardiovascular system, it will also help build endurance and muscle strength. As a low-impact, full-body exercise, swimming is a great way to stay in shape.

```

</div>
<div class="row">
  <div class="course-column">
    <h2>volleyball</h2>
    <p>volleyball, game played by two teams of six players each, in which an inflated ball is volleyed over a high net. Each team tries to make the ball touch the court within the opposing side's playing areas before it can be returned.</p>
  </div>
  <div>
    <div class="course-column">
      <h2>football</h2>
      <p>football, also called association football or soccer, is a game involving two teams of 11 players who try to maneuver the ball into the other team's goal without using their hands or arms.</p>
    </div>
    <div>
      <div class="course-column">
        <h2>badminton</h2>
        <p>badminton is a racket sport played using rackets to hit a shuttlecock across a net. Although it may be played with larger teams, the most common form of the game are "singles" (with one player per side) and "doubles" (with two players per side).</p>
      </div>
      <div class="course-column">
        <h2>gymnastics</h2>
        <p>gymnastics is a large room, usually containing special equipment, where people go to do physical exercises and get fit. the gym has exercise bikes and running machines, while some guests play golf, others work out in the hotel gym. the large gym offers a variety of exercise equipment and weights going up to 100 pounds.</p>
      </div>
    </div>
  </div>

```

✓ Next we added the photos that we about the facilities we are providing to a specific game and we designed those pictures using hover,display,padding,margin,align items,position,color,height,width,flex basis And we had added footer section and interlink of the contact page.

## OUR FACILITIES

While some guests play golf, others work out in the hotel gym.

```
</p>
<div class="row2">
  <div class="column2">
    
    <div class="layer">
      <h3>Chennai
    </h3>
    </div>
  </div>
  <div class="column2">
    
    <div class="layer">
      <h3>Bangalore
    </h3>
    </div>
  </div>
  <div class="column2">
    
    <div class="layer">
      <h3>Kadapa
    </h3>
    </div>
  </div>

```

## Register

o In this we added header section contains all the internal links of our (home,games,contact.,etc) In this section we added some frames and with using input tag. We deifined that using separate div,class and In css using that class and div, we added send button using css to send the details To

ENTER YOUR NAME

ENTER EMAIL ADDRESS

ENTER YOUR GENDER

ENTER PHONE NUMBER

ENTER YOUR GAME

DATE OF JOINING

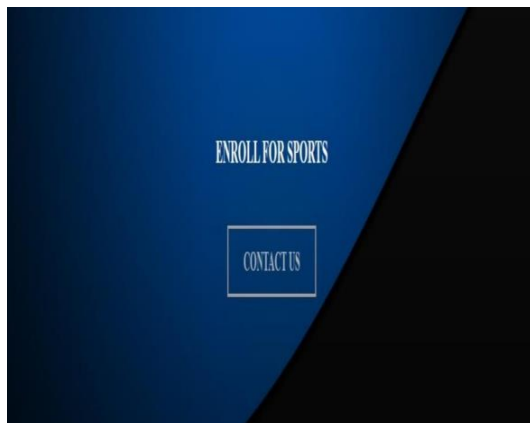

MONTHLY/YEARLY

If you have any query?if yes ask your query or say no

SEND

```
REGISTER
</h1>
</section>
<section class="contact-us">
  <div class="contact-col">
    <form action="">
      <input type="text" placeholder="ENTER YOUR NAME" required>
      <input type="text" placeholder="ENTER EMAIL ADDRESS" required>
      <input type="text" placeholder="ENTER YOUR GENDER" required>
      <input type="text" placeholder="ENTER PHONE NUMBER" required>
      <input type="text" placeholder="ENTER YOUR GAME" required>
      <input type="text" placeholder="DATE OF JOINING" required>
      <input type="text" placeholder="MONTHLY/YEARLY" required>
      <textarea rows="8" placeholder="If you have any query?if yes ask your query or say no" required></textarea>
      <button type="submit" class="visit">SEND</button>
    </form>
  </div>
</section>
```

o We added the footer sections using tags(hover,font,align,padding,background,position ,opacity,trnsform and transition)

```
div{
  margin: 100px auto;
  width: 80%;
  background-image: linear-gradient(rgba(0,0,0,0.4),rgba(0,0,0,0.7)),url(background\ fix.jpg);
  background-position: center;
  background-size: cover;
  border-radius: 10px;
  text-align: center;
  padding: 100px 0;
}

call h1{
  color: #ffff;
  margin-bottom: 40px;
  padding: 0;
}

Footer{
  width: 100%;
  text-align: center;
  padding: 30px 0;
  transition: 0s;
  margin: auto;
  border-radius: 3px;
}
```

## Contact

- In this we added header section contains all the internal links of our (home,games,contact.,etc) In this section we added some frames and with using input tag. We deifined that using separate div,class andIn css using that class and div, we added send button using css to send the details about what he want the places and His description

Thar Road,Chakri building pin code:516765
